Being a student at Chalmers

From welcome day until graduation day the Student Union will care for you. We’ll stand behind you when it gets tough and make sure that there are always fun things to do on your time off.

On a daily basis your Student Division and the university are by your side regarding your courses, future and wellbeing. After graduation you’ll be a part of a world wide network of alumni providing you with contacts and friends for the rest of your life.

World class education and the best student life on the planet. We aim high but that’s also why we offer a gym hall, pool, sauna, study places, affordable lunches, course literature and our own convenience store - right on campus.

The idea is for you to use your time efficiently. The need to leave campus for basic everyday stuff is minimized, making sure you can hang out with your friends, being involved in activities and have fun in your free time. Neither should you have to leave campus for a good, affordable lunch, coffee, “fika” or snacks. And meanwhile we do our best to ensure that your world class education is maintained and improved.

Pool, sauna, laundry room and convenience store makes everyday life easier. All of them are owned by the Union.

Your Student Union

We’re a membership organization run by its members - for its members. We’re committed to everything concerning your student life during your time at Chalmers.

All 11,000 students at Chalmers are members of the Union. That means 11,000 strong voices who can affect, change and make the student experience more fun and meaningful.

However without being properly organized things could easily get out of hand. That’s why we have a Student Union Council who are elected by its members and who make the strategic decisions regarding the Union.

The everyday work is lead by a management team (Kårledningen) and of course all the thousands of volunteers within the Union. See how we’re organized on p. 9

The Student Union Corporation

Our companies provide our members with jobs, affordable lunches and services.

"...GETTING THAT LITTLE EXTRA SOMETHING FROM CHALMERS."
Our companies serve the student union members with great benefits, experience through jobs and daily services on campus.

The student union corporation is a well-operated organisation who handles most parts of the business within the Student Union. Apart from this we run a couple of companies that supplement the range that the non-profit part of the organisation provide.

Financial benefits for our students
Commercial businesses should not profit from our students - that’s why our profits are reinvested into our business.

It matters greatly to us that private commercial businesses can’t overcharge students on campus. All the business within our companies therefore aim to not just be affordable but even give discounts. The restaurants can provide discounts due to our conference center that brings us the necessary profits to reinvest for our members. Relevant services and affordable prices are part of these reinvestments.

Service on campus
Your time is valuable – that’s why we want to provide services that makes student’s every day life easier. All students should have access to affordable services. Affordable might not always mean the cheapest at all costs because we also regard quality and environmental issues. The Student Union also wants the services to be adapted to student’s time frames rather than the most lucrative opening hours.

New experiences
Every student should get that little extra something from Chalmers – that’s why we provide opportunities to develop your skills and talents.

Having a corporation with both employees and trustees as well as non-profit projects gives our members chances to try being a CEO for a year, doing sales and marketing, being a consultant or working with human resources while studying.

Being a board member
Each company within the corporation has its own board. To ensure student focus each board has student members. Being a board member does not only give you influence but also valuable experience. More on p. 32.

Who decides in the end?
It is the Student Union Council who determine what the corporation should focus on. More on p. 12

EKAB is owned by Chalmers Student Union. Emils kårhus is an exciting, beautiful and useful house that was created for the students. It consists of open spaces with different furnishings in most corners where you can sit and talk with friends, study or just relax. The house offers a good selection of restaurants, bookshops, pubs and other membership services.

EmKAB is developing the recreational area in Härryda and our vision include getting the “Chalmerska allemansrätt” back (making it really easy to visit the area), creating a space with a wide array of facilities and possibilities, making it possible for different parties to share the area at the same time, providing the extra benefit for Chalmers students and simply just create a space for hanging out, parties, meetings, fun and recreation. Like on campus, but on the country side.

3 steps to an easier student life
-put your Student Union card to work!

1. Become a member.
When you’ve paid your fee a card will arrive shortly after. Make sure to check your address information to ensure that it’s you, and not someone else, who gets the card. Log on to medlem.chs.chalmers.se with your CID (Chalmers ID). You can also print a receipt of your payment or a new invoice.

2. Top up.
You got the card - congratulations! The smart thing to do now is to top up your card. You can either do a single top up or have it done automatically so you’re never out of cash. Go to www.chalmerskonferens.se/gastkarkort/karkort

3. Use it.
You’re there! Now you can use your card in all Student Union shops and restaurants on both campuses. Where there is a discount you’ll never miss it - it’ll be adjusted automatically when you pay with your card.

And apart from the local benefits you also get a lot of discounts through Mecenat. More on mecenat.se
The map provides details on the location of various restaurants, pubs, and cafés within the Lindholmen area of Gothenburg. For more information about these establishments, refer to page 34.
This is your guide to the student life at Chalmers. Hopefully you’ll have a clearer view on what the Student Union does for you after reading it and how you and your friends can create and connect during your time at Chalmers.

How do I get the most of my time at Chalmers?

How does the Student Union work?

What are my membership benefits?

How can I get involved in all the fun?
