STUDENT UNION

CABINS

CABINS FOR ALL OCCASSIONS

At the shores of lake Sandsjön generations of Chalmers students have come to relax, reunite and recreate.

The Student union aquired the area in 1937 and constructed its first cabin, the sports cabin, still present to this day.

Throughout the years the amount of Chalmers students have more than tripled. The capacity of the facilities has been strained. In 2012

the students in the union council initiated a change, a vision of a student union country house emerged. In 2016 the area was completed.

Supported by this vision we want to restore the public access for all chalmerists. All members in the student union are welcome any time of the year.

General information

Proximity, Göteborg:	20 km
Rentable cabins:	3
Saunas:	2
Owner:	Chalmers Student Union
Parking:	designated areas, outdoors
Transportation:	car or local bus + walking
Acquired	1937

VISIONS ABOUT THE AREA

We want to increase capacity and give more students opportunity to experience nature and get a welcomed break from the studies and the city hustle and bustle.

We want to create a coherent area offering a wide range of premises and opportunities to various activities.

We want different visitors to be able to use the area simultaneously as well as large groups exclusively.

We want to create something special for students at Chalmers.

In short - we want to create a student union building in the countryside. A place for meetings and socializing, parties and business, leisure and recreation. Just like on campus, but closer to nature.

GRAND CABIN

The Grand Cabin is the largest of the cabins and facilities. Up to 120 seated banquet guests can enjoy dinner viewing the lake outside.

The Grand Cabin is a banquet hall but also a cosy and intimate pub. A conference space and dinner hall. A place for both parties and hangouts, in smaller or larger companies. It is surrounded by tall spruces overlooking lake Sandsjön.

The first thing that meets the eye after entering is the view overlooking the lake. You will find a concrete bar for a welcome drink and mingle. You can furnish to your liking to accommodate both small and larger groups.

The banquet hall is located on the first floor. Up to 120 sitting guests can sit among the spruces and there is a well equipped restaurant kitchen here as well.

But the Grand Cabin is even more flexible. A smaller company can both mingle and dine on the entrance floor. The banquet hall can be divided into smaller units to create the right atmosphere. The banquet hall can be used for both small and large conferences or events.

GRAND CABIN

Built 2016
Area 495 m²
Architect Inobi

GUEST CAPACITY
Banquet 120

AMENITIES Free wifi, restaurant kitchen

Beds: 8
Toilets: 3 plus 2 accessible
Accessability: Elevator, threshold free

Welcome to the largest student owned sauna worldwide. With its lakeside location, visitors can cool themselves directly from sauna to lake after a steaming session.

This is the second largest cabin with a capacity of 45 to 60 guests (if there is room for the heart there is room for the ass, as the Swedish saying goes).

There is a well equipped kitchen with dishwasher and a large dining hall with a fireplace.

SovU - attached 15 bed unit.

There are 15 beds in the attached sleeping house SovU that is included in the booking.

The sauna can accompany up to 60 guests. It has two sauna heating stoves. An electric and a firewood unit, both are specially made in Finland and filled with 1,5 ton heat stones. The stoves are a gift from the Finnish association SiMiLi.

The electric unit with its 54 kW is the most powerful ever to be installed in Sweden.

CS SAUNA

Built (1965), 1966, 1971, 1983
Area 155 m²
Architect Christer Wennersten
(org. architect), Mikael Sevholt (latest architect)

GUEST CAPACITY
Cabin 45 (comfortably) - 60 (tight)
Sauna 60

AMENITIES Free wifi, Kitchen

Beds: 15 (in attached building SovU)
Toilets: 2
Accessability: Partly threshold free. Ramp to SovU. Accessible toilet in cabin.

SPORTS CABIN

This is a classic sports cabin with an open ceiling planning, cozy fireplace, simple but modern kitchen and plenty of sleeping space.

The interior is mainly wooden materials and furniture which provides a comfortable and country style feeling.

The large windows offer a great view of the lake and surroundings and just outside there is a wooden deck with a barbeque.

Attached to the cabin there is a small lakeside sauna with its own wooden jetty.

Dining room and social space.

SPORTS CABIN

Built 1967, renovated 2016.
Area 140 m²
Architect Christer Nordstrand

GUEST CAPACITY

Cabin 30
Sauna 20 - 30

AMENITIES Free wifi, Kitchen

Beds: 19 ()
Toilets: 1 + 1 accessible
Accessability: Partly threshold free. Stairs to sauna and thresholds in sauna, no rails.

The attached sauna with jetty.
