

# Student Kårridor

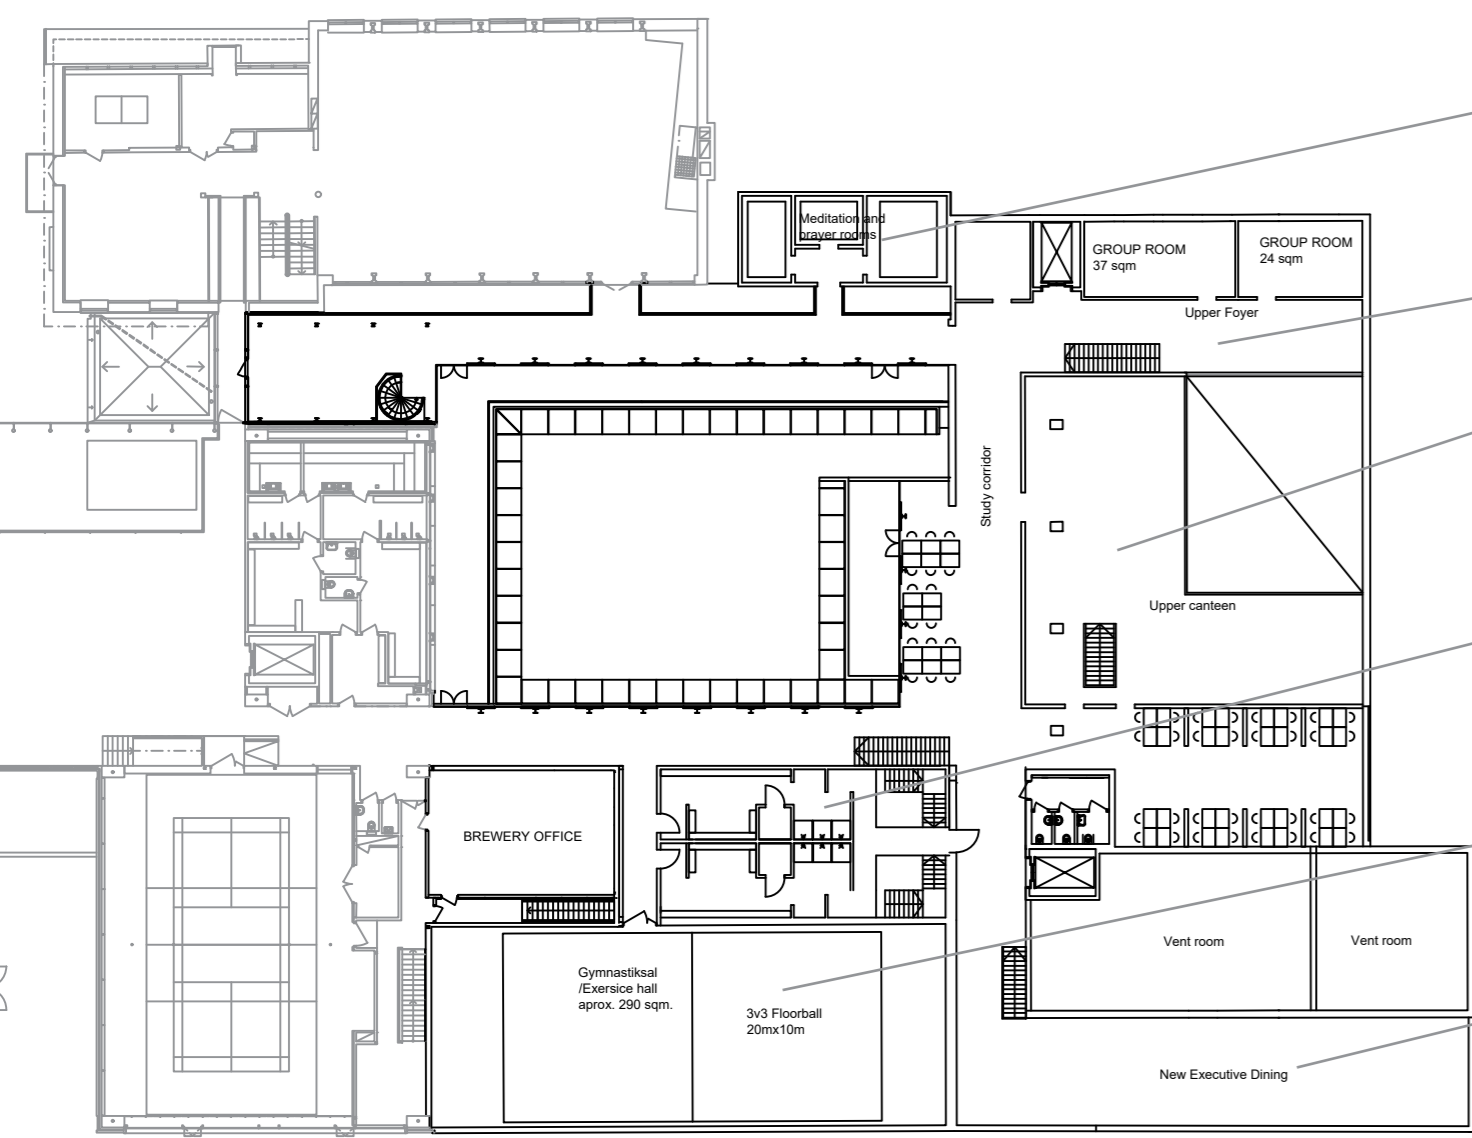

## TOP FLOOR

More group rooms

**Hall**  
Multi purpose hall that serves multiple purposes such as workshops.

**Skybar**  
Rooftop access to rooftop bar and sauna.

## MIDDLE FLOOR

**Meditation and Prayer**  
A quiet place for activities such as Meditation or Prayer, here divided up into three chambers of varying size.

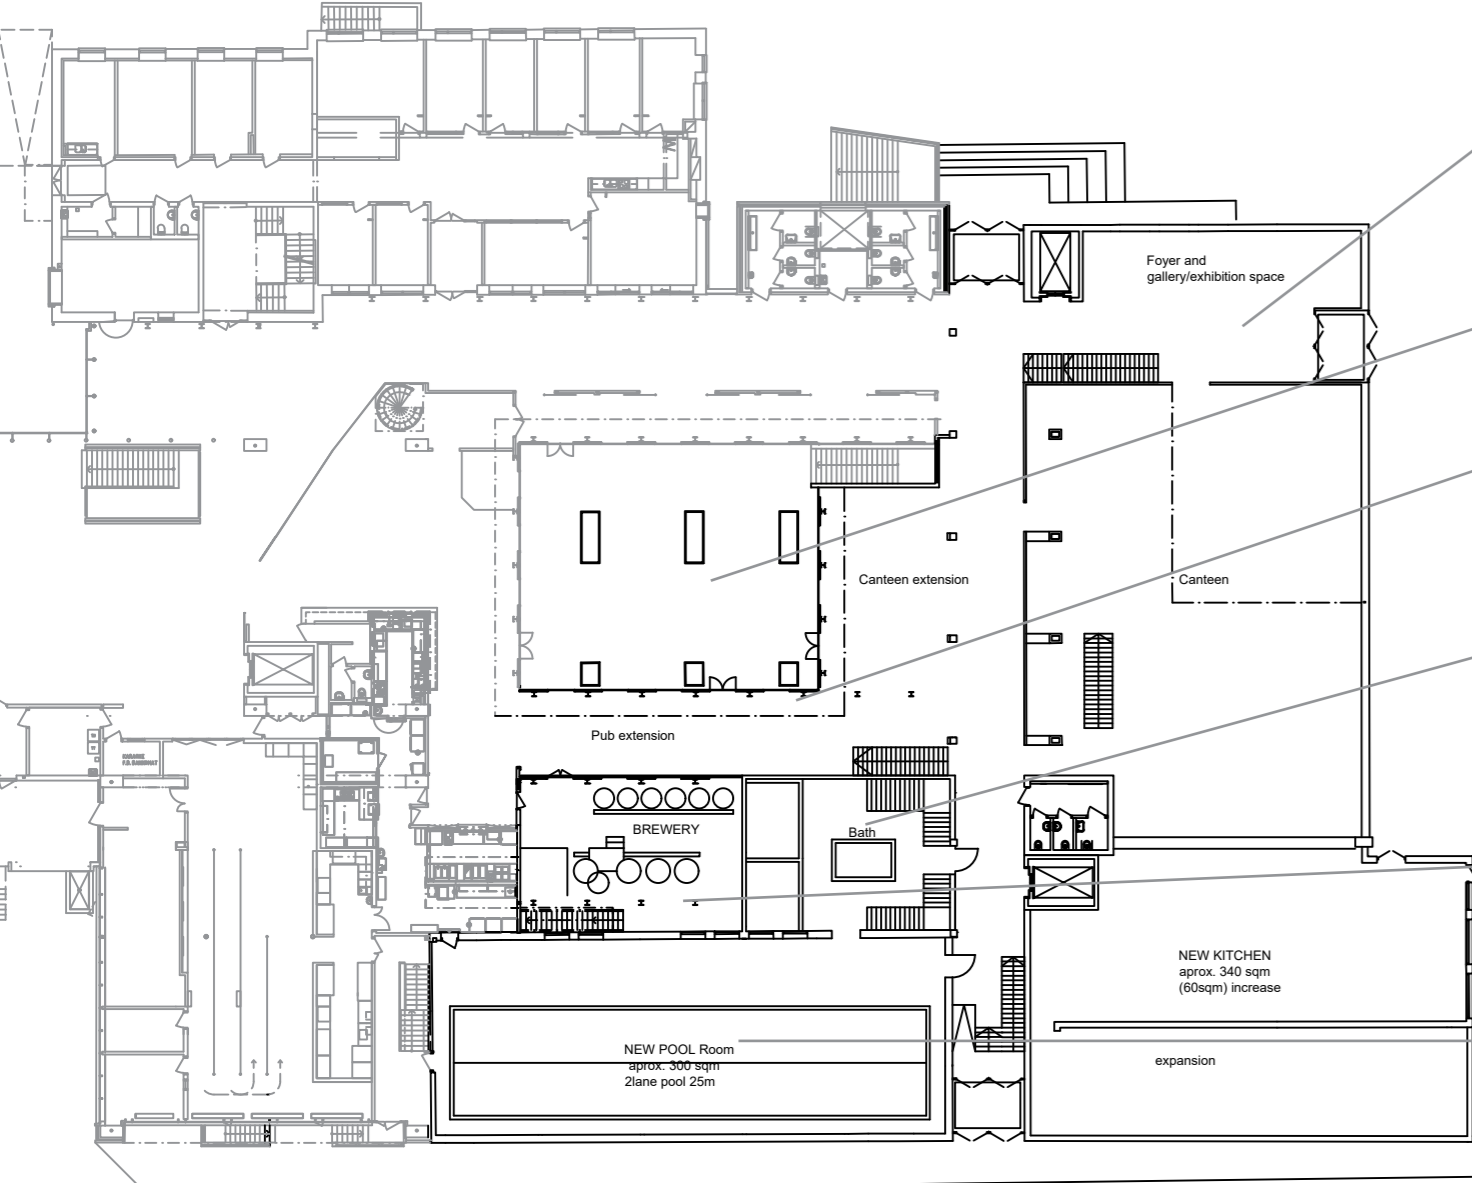

**STUDY**  
Group rooms in different sizes and open study-places.

**Meat Balcony**  
Here you can eat meatballs from a vantage point, other lunches may also be allowed over time.

**Lockerroom**  
Additional changing room for pool and exercise hall.

**Gympasal**  
Larger exercise hall for proper sports and gymnastics.

**Executive Dining**  
For folks fancying fancier food.

## ENTRANCE FLOOR

**Foyer**  
A proper southern entrance with welcoming foyer and gallery, fit for exhibitions

**Court Yard**  
The courtyard will still remain although it will be slightly smaller to make room for the expansion of the cafeteria.

**PUB and Canteen Extension**  
JA Pripps and the canteen will also be merged together for larger events such as pub crawls and meatball Thursday or partitioned to each their own dynamic and separate sections using screens.

**BATH room**  
Adjacent to the pool area there will be a relaxing bath here fitted with three different temperatured baths.

**BREWERY**  
new brewery which will provide fresh, cold beer to all restaurant and bars in the student union building through pipelines.

**25 meter Pool**  
We have decided to massively extend the size of the pool to a size not only large enough for exercise swimming, it's also filled with water!

## BASEMENT

**Shooting Range**  
An indoor shooting range allows for competitive shooting.

**Bowling Alley**  
Two bowling lanes are able to fit underneath the cafeteria.

**New and improved Target**  
Larger storage and committee rooms were the most requested feature.

**Pantry**  
To meet the increased logistical demand, the kitchen's storage has been further expanded below ground.

## OUR VISION

We love the idea of the student union building being a spot where you meet people and where friendships are formed while also serving as a host for various activities.

To shape the program we made our own survey to get a bearing of the needs of the building by asking students active in the various associations, they are after all the ones who perhaps use the Union building the most.

The most recurring need was that of larger rooms for associations and larger storage spaces. As well as more diverse selection of group rooms, study places and bathrooms.

In this proposal in order to fit additional bigger rooms as well as a larger storage facilities, we suggest an excavation of the courtyard and a new canteen building that can fit more floors.

## Floor plan

In the floor plan future services are arranged to see what type of new functions that can fit within the buildings current footprint.

The functions are divided into three types with the Social Zone (the pub, canteen and basement) and Recreational zones (Exercise and swimming), grouped with studyplaces placed around these.

These spaces are arranged as a suggestion along two axes running inside the building with at least two cross connections on each floor in order to enable a more circular movement inside the building as well as shortcuts.
